**REPORT OF THE ACCOUNTING OFFICER TO THE MEMBERS OF THE THE SOUTH AFRICAN
NATIONAL INSTITUTE OF ROCK ENGINEERING**

I have prepared the annual financial statements as set out on pages 4 to 12 for the year ended 30 June 2016 based on the information and explanations provided by the members of the professional body and according to the accounting records which I have completed and maintained from evidence and information provided to me. The annual financial statements are the responsibility of the professional body's members. I have compiled the annual financial statements.

I have determined that the financial statements are in agreement with the accounting records, and have done so by adopting such procedures and conducting such enquiries in relation to the accounting records as I considered necessary in the circumstances.

I have also reviewed the accounting policies which have been represented to me as having been applied in the preparation of the annual financial statements, and I consider that they are appropriate to the business of the professional body.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

I. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The financial statements are prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities issued by the International Accounting Standards Board. They are presented in the currency units (R) of South Africa.

The financial statements are prepared under the historical cost convention as modified by the revaluation of certain property, plant and equipment, marketable securities and investment properties where appropriate.

I.1 Tangible assets

Items of tangible assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

All tangible assets are initially recorded at cost and adjusted for any impairment in value. Cost includes all costs directly attributable to bringing the assets to working condition for their intended use.

Depreciation is calculated on the diminishing balance method to write off the cost of each asset, or the revalued amounts, to their residual values over their estimated useful lives. Land is not depreciated.

The following rates are used for the depreciation of tangible assets:

- | | |
|--------------------------|----------|
| - Furniture and fittings | 10 years |
| - Office equipment | 10 years |
| - Computer equipment | 3 years |

I.2 Impairment of non-current assets

At each balance sheet date, the carrying amounts of tangible and intangible assets and investments in associates are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If the fair value, less costs to sell, of an asset is estimated to be less than the carrying amount, the carrying amount of the asset is reduced to its fair value, less costs to sell. An impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its fair value less costs to sell, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

I.3 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated on a first in, first out basis. Cost includes transport and handling cost.

I.4 Bank balance

The actual bank balance is shown. Outstanding cheques and deposits are included in creditors and debtors respectively.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1.5 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the professional body and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership are transferred to the buyer.

Interest is recognised on a time proportion basis which takes into account the effective yield on the asset over the period it is expected to be held.
